COUNTERPERSON & INSTALLER TRAINING

At AP, we are committed to the development and growth of our customers. As a part of this commitment, we offer online education and training courses for the Counterperson and the Technician/Installer.

These courses are designed to enhance the knowledge base for professionals as they practice their crafts by introducing the many offerings of AP Exhaust Technologies.

THE MANUFACTURING PROCESS

ENGINEERING

ENGINEERING

AP Exhaust Technologies is recognized as one of the world's most innovative producers of aftermarket exhaust and emission systems. At AP, development of these products begins in our engineering technical center

where application research, and the use of state-of-the-art CAD systems, connect with prototyping, and tooling design processes for quicker development and release of new exhaust and emission products.

MANUFACTURING

MANUFACTURING

The minute a part is sold, the process begins for replenishment. AP deploys throughout its 440,000 ft² manufacturing facility a linked production system that consistently produces parts for an on-time delivery to our distribution center. Advanced automation, robotics, and computer controlled equipment assure that quality parts are in position at the right time.

With multiple production areas ranging from steel coil processing, muffler assembly, pipe bending, and catalytic converter welding this modern approach to manufacturing reduces production lead times, and improves the quality of the products and accentuates the responsiveness to AP customer needs.

DISTRIBUTION

DISTRIBUTION

AP's strength is in our consistently high order fill rate maintained across all product lines. From our 250,000 ft² distribution center, daily shipments are processed quickly and accurately assuring that AP customers have the products they need in stock at all times. Using the latest in distribution processes and equipment, AP is leading the way in customer service and delivery.

HOW TO USE THIS CATALOG

Revised format:

The format of the exhaust application section of this catalog has been enhanced to simplify the look-up process. All specific vehicle application diagrams are listed in order by make, model, and then year, sequenced first by numbers then by letter.

To find your exhaust application quickly, follow these easy steps:

1. Locate the vehicle make and model in the Table of Contents section and proceed to the page number listed.
2. Applications are listed in order by newest to oldest model years. The first application listed will contain the newest year of coverage available, then going from the smallest to the largest model engine.
3. Appropriate footnote explanations will appear at the bottom of each page.
4. When optional parts are available, the information will appear at the bottom of each exhaust diagram image.

comment utiliser ce catalogue

Nouveau format :

La section d'applications d'échappement de ce catalogue bénéficie d'un format amélioré, visant à simplifier le processus de recherche. Tous les schémas d'applications spécifiques aux véhicules sont listés par marque, par modèle et par année, avec un classement utilisant d'abord les chiffres puis les lettres.

Pour trouver rapidement votre application d'échappement, exécutez la procédure simple ci-dessous :

1. Dans la section Table of Contents (Table des matières), repérez la marque et le modèle du véhicule, puis reportez-vous à la page indiquée.
2. Les applications sont énumérées selon un ordre allant des modèles les plus récents aux plus anciens. La première application listée correspond à l'année la plus récente disponible et présente les détails en allant du plus petit moteur au plus gros.
3. Des notes supplémentaires apparaissent au besoin dans le bas de chaque page.
4. Si des pièces optionnelles sont disponibles, les informations correspondantes apparaissent dans le bas de chaque schéma d'échappement.

cómo utilizar este catálogo

Formato revisado:

El formato de la sección de aplicaciones de escape de este catálogo se ha mejorado para simplificar el proceso de búsqueda. Todos los diagramas específicos de la aplicación para vehículos figuran en orden por marca, modelo y año, con una secuencia primero por número y luego, por letra.

Para encontrar la aplicación de escape rápidamente, siga estos pasos simples:

1. Ubique la marca y el modelo del vehículo en la sección Tabla de contenidos y continúe en el número de página indicado.
2. Las aplicaciones aparecen ordenadas por año de modelos, de los más nuevos a los más antiguos. La primera aplicación contiene el año de cobertura disponible más nuevo; luego va del modelo de motor más pequeño al más grande.
3. En la nota al pie que se encuentra en la parte inferior de cada página aparecerán las explicaciones correspondientes.
4. Si existen partes opcionales, la información aparecerá en la parte inferior de cada imagen del diagrama del escape.

Making The Vehicle VIN Work For You

Since 1981 models, Vehicle Identification Numbers have been in a 17-character format.

Each character or group of characters explains a particular trait of that vehicle. To properly identify vehicle applications in this catalog, you will need to familiarize yourself with the following 3 characters:

Character #5 - Engine Code

Character #10 - Model Year

Character #11 - Assembly Plant location.

Procédure d'utilisation du VIN de votre véhicule

Depuis 1981, les numéros d'identification de véhicule (VIN) sont présentés sous un format de 17 caractères.

Chaque caractère ou groupe de caractères décrit une caractéristique du véhicule. Pour identifier correctement les applications présentées dans ce catalogue, vous devez vous familiariser avec les 3 caractères suivants :

Caractère n° 5 : Code de moteur

Caractère n° 10 : Année modèle

Caractère n° 11 : Site d'assemblage

Cómo hacer que el VIN del vehículo le resulte útil

A partir de los modelos 1981, los Números de identificación vehicular tienen un formato de 17 caracteres.

Cada carácter o grupo de caracteres explica una característica particular de ese vehículo. Para identificar adecuadamente las aplicaciones para vehículos de este catálogo, deberá familiarizarse con los 3 caracteres que figuran a continuación:

Carácter N.º 5: código del motor

Carácter N.º 10: año de modelo

Carácter N.º 11: ubicación de la planta de ensamblaje

A=1980	L=1990	Y=2000	A=2010
B=1981	M=1991	1=2001	B=2011
C=1982	N=1992	2=2002	C=2012
D=1983	P=1993	3=2003	D=2013
E=1984	R=1994	4=2004	E=2014
F=1985	S=1995	5=2005	F=2015
G=1986	T=1996	6=2006	G=2016
H=1987	V=1997	7=2007	H=2017
J=1988	W=1998	8=2008	J=2018
K=1989	X=1999	9=2009	K=2019

VIN Locations:

- Lower driver's side dashboard corner of windshield

OR

- On doorpost where driver's door latch meets.

HOW TO DETERMINE ENGINE SIZE AND MODEL YEAR

IN MANY APPLICATION LISTINGS IN THE CATALOG, IT IS REQUIRED FOR YOU TO KNOW THE PROPER ENGINE SIZE.

The following information will allow you to determine proper model year and engine size:

FOR	MODEL YEAR		ENGINE TYPE
ACURA	86-06	10th DIGIT	NOT IDENTIFIED IN VIN EXC. FOR 96-99 SLX
AMC	81-88	10th DIGIT	4th DIGIT
	75-80	2nd DIGIT	7th DIGIT
AUDI	81-06	10th DIGIT	NOT IDENTIFIED IN VIN
BMW	81-06	10th DIGIT	NOT IDENTIFIED IN VIN
BUICK	81-08	10th DIGIT	8th DIGIT
CADILLAC	81-08	10th DIGIT	8th DIGIT
CHEVROLET	81-08	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
CHEVROLET TRUCK	81-08	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	3rd DIGIT
CHRYSLER	81-08	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
DAIHATSU	88-92	10th DIGIT	8th DIGIT

FOR	MODEL YEAR		ENGINE TYPE
DODGE	81-99	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
DODGE TRUCK	81-89	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
EAGLE	88-98	10th DIGIT	8th DIGIT
FIAT	79-85	NOT IDENTIFIED IN VIN	NOT IDENTIFIED IN VIN
FORD (EXC. FIESTA)	81-09	10th DIGIT	8th DIGIT
	75-80	1st DIGIT	5th DIGIT
FORD TRUCK (EXC. COURIER)	81-09	10th DIGIT	8th DIGIT
	75-80	NOT IDENTIFIED IN VIN	4th DIGIT
FORD COURIER		5th DIGIT	4th DIGIT
GEO	89-97	10th DIGIT	8th DIGIT
GMC TRUCK	81-08	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	3rd DIGIT
HONDA	80-04	10th DIGIT	NOT IDENTIFIED IN VIN (8th Digit Passport)
HYUNDAI	86-05	10th DIGIT	8th DIGIT
INFINITI	90-05	10th DIGIT	4th DIGIT - 90 to 99 Models only
ISUZU	81-04	10th DIGIT	8th DIGIT
	89-07	10th DIGIT	8th DIGIT
	81-88	10th DIGIT	6th DIGIT

	96-05	10th DIGIT	8th DIGIT
KIA	94-95	10th DIGIT	NOT IDENTIFIED IN VIN
	90-04	10th DIGIT	4th DIGIT - 90 to 99 Models only
LEXUS	81-09	10th DIGIT	8th DIGIT
LINCOLN	75-80	1st DIGIT	5th DIGIT
	81-06	10th DIGIT	NOT IDENTIFIED IN VIN
MAZDA	75-80	NOT IDENTIFIED IN VIN	4th DIGIT
	81-09	10th DIGIT	8th DIGIT
MERCURY	81-04	10th DIGIT	NOT IDENTIFIED IN VIN
MERCEDES-BENZ	75-80	NOT IDENTIFIED IN VIN	NOT IDENTIFIED IN VIN
	85-90	10th DIGIT	8th DIGIT
MITSUBISHI	83-04	10th DIGIT	8th DIGIT
NISSAN	81-05	NOT IDENTIFIED IN VIN	NOT IDENTIFIED IN VIN
OLDSMOBILE	81-04	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	8th DIGIT
PLYMOUTH	81-01	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
PLYMOUTH TRUCK	81-00	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
PONTIAC	81-08	10th DIGIT	8th DIGIT
	75-80	6th DIGIT	5th DIGIT
PORSCHÉ	81-04	10th DIGIT	NOT IDENTIFIED IN VIN
	80	3rd DIGIT	NOT IDENTIFIED IN VIN
	75-79	4th DIGIT	NOT IDENTIFIED IN VIN
RANGE ROVER/LAND ROVER	87-98	10th DIGIT	7th DIGIT
RENAULT	83-87	10th DIGIT	4th or 5th DIGIT
	75-80	NOT IDENTIFIED IN VIN	NOT IDENTIFIED IN VIN

FOR	MODEL YEAR		ENGINE TYPE
SAAB	84-04	10th DIGIT	8th DIGIT
	81-83	10th DIGIT	7th DIGIT
SATURN	91-07	10th DIGIT	8th DIGIT
STERLING	87-91	10th DIGIT	8th DIGIT
SUZUKI	86-04	10th DIGIT	6th DIGIT
TOYOTA	81-04	10th DIGIT	4th DIGIT
VOLKSWAGEN	81-99	10th DIGIT	NOT IDENTIFIED IN VIN
VOLVO	81-04	10th DIGIT	6th AND 7th DIGIT
	75-80	8th DIGIT	6th AND 7th DIGIT
YUGO	86-92	10th DIGIT	7th DIGIT

FOR MODEL YEAR CODES USE THIS CHART:

14 - E	06 - 6	98 - W	90 - L	82 - C
13 - D	05 - 5	97 - V	89 - K	81 - B
12 - C	04 - 4	96 - T	88 - J	80 - A or 0
11 - B	03 - 3	95 - S	87 - H	79 - 9 or M
10 - A	02 - 2	94 - R	86 - G	78 - 8 or L
09 - 9	01 - 1	93 - P	85 - F	77 - 7 or H
08 - 8	00 - Y	92 - N	84 - E	76 - 6 or E
07 - 7	99 - X	91 - M	83 - D	75 - 5

Engine codes vary greatly by manufacturer; however, in most instances you will only be asked to determine engine by letter code only.

EXAMPLE:

1985 CHEVROLET CAMARO 5.0L. 1 2 3 9 0 7 0 G A F 0 1 C A B
↑ ↑
8th 10th

1985 W/5.0L - G ENG.

To help determine what type of converter was originally installed on your car, look for the under hood emissions sticker which can be found on the fan shroud, filter housing, shock tower, valve cover, or on the under side of the hood. This sticker will usually contain, along with converter type information, tune up specs and engine size.

ONE OF THE FOLLOWING CODES MAY BE FOUND:

FOR: 2 WAY	OC or COC
FOR: 3 WAY	ORC or TWC
FOR: 3 WAY W/ AIR	ORC/COC or ORC/OC
	TWC/COC or TWC/OC

GENERAL INFO

OBD II

A GENERAL DESCRIPTION

OBD II refers to the On Board Diagnostics Generation Two Emissions System. This system first came into use on some 1995 passenger cars and all 1996 passenger cars and light duty trucks (generally, trucks with a G.V.W. of less than 8,500 lbs.)

OBD II systems monitor all emission control related devices on the vehicle.
The functions monitored are as follows:

- Catalyst Efficiency
- Oxygen Sensor Response
- Engine Misfire
- Evaporative Emission Leaks
- Fuel System Supply
- EGR System
- Secondary Air Injection System
- Engine Sensor Output

When a component or a system fails, the **MIL** (Malfunction Indicator Light), **Check Engine** light or **Service Engine** light will illuminate, alerting the driver that the vehicle needs servicing.

As for catalyst efficiency the system functions are as described below:

The OBD II system uses a rear or post converter oxygen sensor to monitor the percent content of oxygen leaving the catalyst as the engine fuel system cycles from rich to lean in response to the before catalyst (Pre-converter) oxygen sensor signal. The catalyst washcoat stores some oxygen during the lean cycles to aid in the oxidation process and releases it during the rich cycles. The rear oxygen sensor will produce a steady voltage signal if the catalyst oxygen storage capacity is correct. A fluctuating signal is an indication that the catalyst is not functioning properly and the **MIL** will come on.

Diagnosing is done with an OBD II scanner or through conventional sensor testing. Currently only the state of California prohibits the use of aftermarket converters for use on OBD II vehicles unless they have been shown to meet California Air Resources Board requirements. The United States Environmental Protection Agency does allow for aftermarket converter use and a copy of their position is shown on the following page.

If you have any problems or questions please call Customer Service at 1-800-277-2787,
Monday-Friday, 8AM to 5PM Eastern Standard Time.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
AIR AND RADIATION

This is in response to your recent request for clarification concerning the sale of aftermarket converters for use on OBDII vehicles.

At the present time, the aftermarket converter policy does not specifically address the sale and/or use of aftermarket converters for OBDII vehicles. Therefore, at this time, my opinion is that companies can market and install aftermarket converters if they meet all the requirements of our policy, specify that their use will meet the requirements of the policy for these type of vehicles, specify which specific vehicles they can be used on, and provide the required warranty for the required time periods. The required aftermarket converter warranty should cover any converters in which the MIL illuminates because of a catalyst failure so manufacturers should only market aftermarket converters for those vehicles which are also good enough that the catalyst monitor will not detect a problem for the required 25,000 mile performance period. Thus, the liability for a catalyst failure within the required warranty period would be on the converter manufacturer and the installer if they market or install the aftermarket converters for those applications.

There are still restrictions that aftermarket converters can only be installed on vehicles under certain limited circumstances such as only after the emissions control warranty (8/80 for catalysts on 1995 and newer vehicles) expires, etc. Therefore, at this time, I see a limited need for these installations. However, this will obviously be more of an issue in the future.

I hope this responds to your questions. Please feel free to contact me if you have further questions, comments, or suggestions concerning this issue.

Sincerely,

Steve Albrink
Certification & Compliance Division
Office of Transportation and Air Quality

(13777)

4 Cyl.

Diagram of the Exhaust System for a 5 Cyl. V6 Engine. The diagram shows the flow from the engine through a damper, various pipes, and mufflers to the tailpipe. Key components and part numbers are labeled: 8701 (Air Filter), 8233 (2 used) (Clamp), 93997 (Muffler), 9256 (Gasket), 8689 (Gasket), 68318 (Pipe), 8233 (Clamp), 28332 (1) (Clamp), 9081 (Gasket), M178 (Bracket), 3562 (1) (Bracket), 9822 (2 used) (Chrome Tip), and 8233 (Clamp). The damper is labeled "Damper (Auto. Trans.) NA (Man. Trans.) NR".

92-93 4 Cyl. MX-3, 1.6L Engine

The diagram illustrates the fuel system assembly. The main assembly includes a fuel line with various components labeled: 9251 (flange), M218 (nut), 28461 (flexible hose), 9250 (nut), 8233 (2 used) (nuts), [98] (bracket), 9081 (nut), 68317 (fuel line), 8233 (nut), 28332^[1] (nut), 9081 (nut), M178 (nut), 3518^[1] (nut), 8233 (nut), and 8233 (nut). An alternative assembly option is shown in a box labeled "OR Welded Assembly", which includes a welded fuel line, 8233 (nut), 7023 (nut), and 8233 (nut).
